ADVISORY No. 290, s. 2019

TO : Secondary School Heads
Secondary Class Advisers, Secondary Level Students

FROM :  **JORGE M. REINANTE, CSEE, CEO VI, CESO V**
Schools Division Superintendent

DATE : September 18, 2019

SUBJECT : **THE YOUTH INNOVATION CHALLENGE**

In reference to the regional memorandum dated September 16, 2019, endorsing the Unnumbered Memorandum from DepEd Central Office, with the invitation from the Multiple Intelligence International School (MIIS) for the secondary level students to participate in the Youth Innovation Challenge, on **September 23, 2019** at the **Philippine International Convention Center (PICC), Pasay City, Metro Manila**. Attached is the copy of the memorandum with the event primer for your reference.

It is reminded that Participation to this activity is **voluntary**. Parents permit shall be sought, and precautionary measures shall be instituted to ensure the lives and safety of all concerned. Any action therefore should be the discretion and responsibility of the school head. However, it is the school's moral and legal obligation to look after the welfare of the participants, hence, extraordinary diligence shall be exercised at all times. The implementation of "No Collection Policy" pursuant to the implementing rules and regulations of D.O. No. 41, s. 2012 and D.O. No. 66, s. 2017 re: Implementing Guidelines on the Conduct of Off-Campus Activities shall be strictly observed.

For information and guidance.

YOUTH *innovation* CHALLENGE 2019

SEPTEMBER 23, 2019

Philippine International Convention Center
Vicente Sotto Street, Pasay City, Manila, Philippines

What is YIC 2019?

The Youth Innovation Challenge 2019 (YIC 2019) is the first event of its kind in the Philippines, bringing together local students from private and public schools, and international high school students and educators to learn about the power of new ideas.

Spearheaded by the Multiple Intelligence International School (MIIS), YIC 2019 aims to give the youth the opportunity to create **solutions and innovate** to address common concerns and problems prevalent in society.

YIC 2019 will seek to convene the most innovative thinkers and doers in the Philippines and create a platform for them to connect with the youth. In this way, MIIS hopes to empower them with the tools and ideas to make a difference.

Sustainable Development for the Next Generation

At YIC 2019, students will be synthesizing three main tools to provide solutions to real-world problems.

DESIGN THINKING

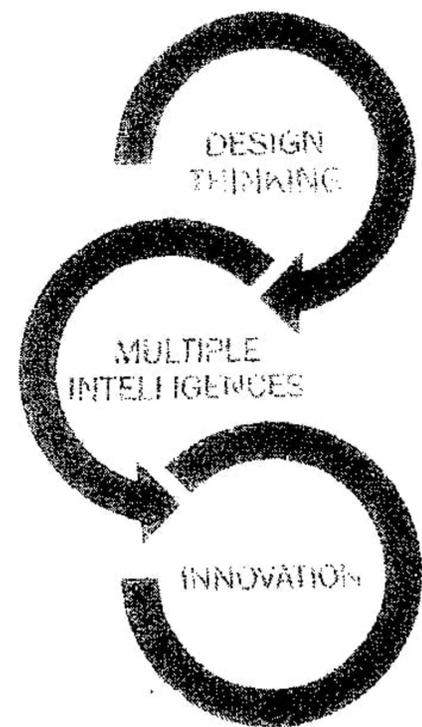

Students and participants are encouraged to empathize with principal stakeholders to design real-world solutions.

MULTIPLE INTELLIGENCES

The MI Framework will guide students to utilize their strengths to their advantage.

INNOVATION

Collaboration is key to creating innovative solutions to problems, and will enable students to interact with their peers.

Goals and Objectives

- 1) To introduce design thinking as a tool for capacity-building and national development;
- 2) To give students the mindset and toolset to design solutions to prevalent problems the Philippines faces, grounded in their unique contexts;
- 3) To encourage and foster dialogue to deepen understanding of sustainable development;
- 4) To foster 21st-Century skills in communication, collaboration, critical thinking, and creativity (4Cs) to be globally competitive;
- 5) To deepen an understanding of their multiple intelligences and provide a skill-building platform for students to develop an innovative and enlightened mindset to use their intelligences to Make A Difference.

Why Join YIC 2019?

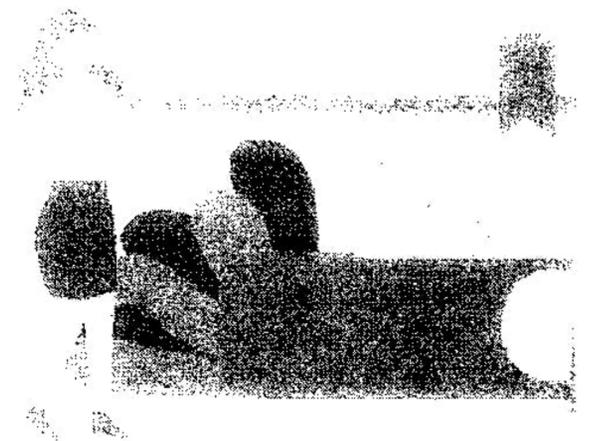

From May 20-24, 2019, at the Philippine Science Center, Quezon City

FOR STUDENTS:

- Hone 21st-Century skills through collaborative problem-solving of relevant problems of the youth;
- Gain exposure to **design thinking** from experts from the Philippine innovation and startup landscape;
- Challenge yourself to **formulate solutions** to real-world problems;
- Equip yourself with the toolset for **global education** and **skills for the future**.

FOR TEACHERS & FACULTY-MENTORS:

- Gain the toolset to educate students on 21st-Century skills on **innovation, design thinking, and the Multiple Intelligence Theory**;
- Learn from the **leaders of top companies and organizations** at the forefront of disruption in the 21st Century;
- Take your students **outside the traditional classroom** and allow them to thrive and collaborate with their fellow students;
- Attend **DepEd partner workshops** designed for innovative thinking.

Conference Theme

"Making a Difference with our Intelligences Towards Progress"

Audience

YIC 2019 aims to stimulate dialogue that brings various perspectives into creating solutions for shared concerns. A healthy mix of students from Philippine National/Science public schools and private schools will be held to create a genuine exchange of ideas that come from diverse realities. International students will be invited to add a mind-set and skill-set that can enrich the creation of innovative solutions and a sense of brotherhood and unity in understanding and advocating for sustainable societies across borders.

Faculty advisers will be invited as observers and to attend faculty expert sessions to equip them to teach innovation in their classrooms.

Total expected number of attendees: 800-1000

Format

What is the Youth Innovation Challenge?

Students are challenged to use design thinking to collaborate and create an innovation to solve a real world problem they face, in the form of a product, social enterprise, digital platform concept, or social media campaign.

Learning Sessions: Plenary Of Speakers
Learn what kind of government support and industry support can be given to young innovators and be inspired by the mindset and toolset used by successful individuals and companies with innovative solutions.

Innovation Workshops
Students can choose an intelligence workshop with a relevant problem they will be challenged to solve. Students will be grouped with a diverse group of students to give them the opportunity to practice 21st century skills as applied to designing solutions and innovations.

Innovation Challenge Award and Youth Innovation Publication
A winner will be awarded for each challenge for coming up with the best innovative solution. A compilation of notable innovative solutions will be published to be disseminated to participating schools and relevant government and civic groups.

Workshops for faculty and mentors will be held simultaneously with the student workshop in the afternoon. This provides a venue for teachers to learn design thinking and innovation in their own environment, and will encourage an innovation mindset within the classroom setting.

Invited Partner: Udemy, IBM, Microsoft, Smart Communications

Morning Schedule

Panel: Disruptive Innovation

Time	Mins	Segment	Relevant Topics	Description

Interpersonal	Community Development	To address community issues to long-term solutions	EU*	Janette Marie Bun-Parson
Intrapersonal	Mental Health	To create programs for the youth to promote mental well-being	Head Jonson	Aranga

*to confirm

MI AWARDS

The Multiple Intelligence Awards was started in 2005 and has been a national search for individuals and organizations who have used their "SMARTS" to make a difference. It was launched to recognize those who have not only use their "Intelligence" to succeed in their life's work but also to make a significant contribution to society. This biennial awarding ceremony has been cited in three international publications: "Multiple Intelligences: New Horizons" (Basic Books 2006), "Multiple Intelligences Around the World" (Jossey Bass, 2009), and "Frames of Mind: 40 Years" (Gardner, 2017).

This year's MI "SMART" Awards will be given at the closing ceremony of the Youth Innovation Challenge.

MI Awards 2017 - Awarded to the winners: Adnan, Teodoro Pineda Belmonte, Cecilio Pedro, Mayor Herbert Bartista, and other icons.

Registration

The Youth Innovation Challenge 2019 is organized in a way that facilitates innovation and stimulates the intelligence of all our attendees. The afternoon workshops are divided into the 8 key intelligences, and will be facilitated by leaders in particular fields.

While we aim to fit students to the workshops that they are most interested in, each area has a **limited number of seats**. Upon registration, participants will be prompted to indicate their **top 4 workshop preferences**.

While we will do our best to meet these preferences, this does not guarantee a seat in the top-preferred preference. Other factors - such as school representation, delegate distribution, and the like - will be considered.

Registration Fees

REGULAR DELEGATE REGISTRATION FEE (PHP 2,500)

REGULAR DELEGATE REGISTRATION FEE (PHP 2,500

inclusive of panel session + workshop seat for students, snacks, lunch, YIC 2019 kit, and certificate

To Register:

Go to bit.ly/YICChallenge2019
or email yic2019@mischool.edu.ph

Future Directions

YIC 2019 is envisioned as the first of a yearly series of challenges and/or summits that will be spearheaded by the **Multiple Intelligence International School**. This is in line with our vision of a Philippine youth community that is empowered to solve problems through design thinking, innovation, and their multiple intelligences.

Possible future directions for YIC may include:

- A yearly regional summit to take place in innovation centers around the Philippines, such as Cebu and Davao, inviting students and mentors from around the region.
- A caravan-type summit that travels from region-to-region in order to foster innovation not only in urban centers around the Philippines, but also within rural areas where innovative ideas to solutions are most needed.
- A summit open to all ASEAN member countries, aimed at fostering collaboration not only within the Philippines.

YOUTH *innovation* CHALLENGE 2019

REGISTRATION FORM

Greetings from the Multiple Intelligence International School! We invite you to join us on September 23, 2019 for the Youth Innovation Challenge 2019, a seminar-workshop for high school students and teachers for design thinking and innovation.

Name of School	
Address	

Students

Name	Level	Linguistic	Logical-Mathematical	Spatial/Visual	Bodily Kinesthetic	Musical	Naturalist	Interpersonal	Intrapersonal
e.g. Juan de La Cruz	12	1		4		2		3	

Each participant will be registered for 1 workshop in a first come, first served availability. Kindly indicate 1st-4th choice of workshop.
